PARASITOLOGY TODAY

REFERENCE EDITION

Volume 5

1989

CONTENTS

JANUARY

News and Comment
Hookworm Disease: Current Status and New Directions, *by D. W. T. Crompton* 1
European Federation of Parasitologists 2

Focus
Cultivation of Trematodes in Chick Embryos, *by B. Fried* 3
RNA Editing: New Insights into the Storage and Expression of Genetic Information, *by K. Stuart* 5

Letters
Bednets: the Cannabis Connection, *by D. Warhurst* 9
Editorial Comment, *by J. Baker* 9
Entamoeba histolytica: Evasion and Invasion, *by R. K. Mehlotra* 9
Diagnostic DNA Amplification–Not the Complete Answer?, *by Andrew P. Waters and Thomas F. McCutchan* 9
Reply, *by M. H. L. de Bruijn* 10

Reviews
Immunophysiology of Enteric Parasitism, *by G. A. Castro* 11
Complement and Parasitic Trematodes, *by Z. Fishelson* 19

HiTech
Immunoselection Techniques for Cloning DNA-encoding Parasite-specific Antigens, *by M. A. Miles and J. L. Clarke* 25

Alternative Answers
Biological Control of Ruminant Trichostrongylids by *Arthrobotrys oligospora*, a Predacious Fungus, *by M. A. Hashmi and R. M. Connan* 28

Book Review
Catalogue of the Garnham Collection of Malaria Parasites and Other Haemosporidia, *by J. R. Baker* 30

FEBRUARY

News and Comment
Malaria Eradication in Chile, *by M. Ulloa* 31
Towards Standardized Names for Parasitic Diseases, *by J. R. Baker* 31
News from the WHO and the TDR Special Programme 32
George Hitchings and Gertrude Elion – Nobel Prizewinners, *by L. G. Goodwin* 33

Focus
Glutathione *S*-transferases – Potential Components of Anti-schistosome Vaccines?, *by G. F. Mitchell* 34
Intra-specific Variation in *Schistosoma mansoni, by J. T. Jones and J. R. Kusel* 37

Letters
Parasitic Worms in Nigerian Folklore, *by O. B. Akogun* 39
How much Malaria is there Worldwide?, *by D. Stürchler* 39
The 'Ryan Virus', *by J. R. Baker* 40

Reviews
Adjuvants for Anti-parasite Vaccines, *by R. Bomford* 41
Tick–Host Interaction: A Synthesis of Current Concepts, *by W. R. Kaufman* 47

HiTech
Biochemical Resistance Detection: An Alternative to Bioassay, *by W. G. Brogdon* 56

Book Review
Reproductive Biology of Invertebrates. Vol. III. Accessory Sex Glands, *by B. M. MacKinnon* 61

Books Received 61

MARCH

News and Comment
Onchocerciasis and the Mectizan Donation Programme, *by H. Bradshaw* 63
C-Now: Report of a Workshop on Neurocysticercosis, *by A. Flisser, D. Overbosch and F. van Knapen* 64
ICT7: The 1988 *Trichinella* Olympics, *by E. R. James* 66

Focus
The Dynamics of East Coast Fever: a Modelling Perspective for the Integration of Knowledge, *by G. Gettinby and W. Byrom* 68
The Isolation of Nucleic Acid from Nematodes Requires an Understanding of the Parasite and its Cuticular Structure, *by H. J. S. Dawkins and T. L. Spencer* 73
Iron and Malaria, *by S. J. Oppenheimer* 77
The Application of Nuclear Magnetic Resonance Spectroscopy to Parasite Metabolism, *by W. F. O'Sullivan, M. R. Edwards and R. S. Norton* 79

Reviews
Reinfection after Treatment of Schistosome Infections, *by H. A. Wilkins* 83
Tabanids as Vectors of Disease Agents, *by L. D. Foil* 88

Book Reviews
The Biology of Parasitism: A Molecular and Immunological Approach (MBL Lectures in Biology Vol. 9), *by S. L. Croft* 96
Eosinophils. A Comprehensive Review and Guide to the Scientific and Medical Literature, *by A. E. Butterworth* 96

APRIL

News and Comment
This Month 99
Research Developments in the Study of Parasitic Infections, *by D. Rollinson, C. A. Facer and R. M. Anderson* 100
Bed Bugs in Britain, *by F. King, I. Dick and P. Evans* 100

Focus
Rapid Ribosomal RNA Sequencing and the Phylogenetic Analysis of Protists, *by A. M. Johnson and P. R. Baverstock* 102
Toxocara pteropodis and Visceral *Larva Migrans, by P. Prociv* 106

Letters
Dermatobia Revisited or Tickling Cows with Feather Dusters, *by P. D. Marsden* 110
The Scourge on the Land, *by R. Le Berre* 110
Gertrude Elion and George Hitchings, *by W. Gibson* 110
Apology, *by L. Goodwin* 110

Reviews
Chagas Disease: a Model for the Study of Autoimmune Diseases, *by K. Petry and H. Eisen* 111
Field-adapted Assays for Chloroquine and its Metabolites in Urine and Blood, *by F. C. Churchill* 116
Evolution in the Pentastomids, *by R. E. Haugerud* 126

HiTech
Antiparasitic Drug Design, *by D. Hart, A. Langridge, D. Barlow and B. Sutton* 117

Alternative Answers
Detection of Haematoparasites Using Quantitative Buffy Coat Analysis Tubes, *by R. A. Levine, S. C. Wardlaw and C. L. Patton* 132

Book Review
Parasitic Infections in the Compromised Host (Infectious Disease and Therapy Series, Vol. 1), *by D. Wakelin* 134

Books Received 134

MAY

News and Comment
This Month 135
How Prevalent are Head Lice?, *by H. Bradshaw* 135
Yellow Fever in 1987 136

Debate
Immunogenetics and Malaria, *by D. Arnot* 138
and by T. F. McCutchan, M. F. Good and L. H. Miller 143

Reviews
Ivermectin as a Systemic Insecticide, *by H. C. Jackson* 146
Xenobiotic Metabolism in Helminths, *by W. Y. Precious and J. Barrett* 156

Letters
Further Contribution to Giardiasis Debate, *by J. Eckert, R. C. A. Thompson and A. J. Lymbery* 161
Ryan Virus and the Lipovirus: Examples of *Acanthamoeba (Hartmannella)* Contamination of Cell Cultures, *by D. Warhurst* 161

Focus
Rice, a Challenge to Health, *by M. W. Service* 162

Book Review
Polytene Chromosomes in Genetic Research, *by R. Post* 165

JUNE

News and Comment
This Month 167
International Commission on Zoological Nomenclature 167
New UNESCO International Project, *by D. A. P. Bundy* 168
Medical Research Council: Review of Malaria Immunology 168
Trichinella Reference Centre, *by E. Pozio, G. La Rosa and P. Rossi* 169
Searching: IDRC 1988; Fresh Water, The Human Imperative 170

Reviews
Cellular Immunity in Crustaceans and the proPO System, *by M. W. Johansson and K. Söderhäll* 171
The Role of Parasites in Regulating Host Abundance, *by M.E. Scott and A. Dobson* 176

Focus
Why do *Plasmodium falciparum*-infected Erythrocytes form Spontaneous Erythrocyte Rosettes?, *by M. Wahlgren, J. Carlson, R. Udomsangpetch and P. Perlmann* 183
Does *Trypanosoma cruzi* Stress its Vectors?, *by G.A. Schaub* 185
BCG: A Modifier of Immune Responses to Parasites, *by D. Frommel and P. H. Lagrange* 188
The Effects of Host Sex on Transmission Success, *by R. C. Tinsley* 190

HiTech
Methods for the Determination of Glycolipids as Parasite Antigens, *by K. Petry and H. Eisen* 196

Book Review
Chemotherapy and Drug Resistance in Malaria (2nd edn), *by D. C. Warhurst* 197

Books Received 198

Product News 199

JULY

News and Comment
This Month 201
Pre-erythrocytic Stage Malaria Vaccine Development: Current Status and Future Prospects, *by E. Riley* 202
London Molecular Parasitology Club 203

Reviews
The Mannitol Cycle – A New Metabolic Pathway in the Coccidia, *by D. M. Schmatz* 205
The Veterinary Importance of Nodular Worms (*Oesophagostomum* spp), *by T. B. Stewart and L. C. Gasbarre* 209

Letters
More About the 'Ryan Virus', *by S. T. O. Alghali, M. Rabinovitch, J. Jacobs* 214
Mass Treatment of Schistosomiasis, *by G. C. Coles* 214
More About Canapés, *by R. Le Berre* 214

Focus
Neurobiology of Sleeping Sickness, *by V. W. Pentreath* 215
Red Cell Deformability and Invasion by Malaria Parasites, *by G. Pasvol and R. J. M. Wilson* 218
Diagnosis of *Pneumocystis carinii* Pneumonia, *by J. M. Hopkin and A. E. Wakefield* 222
Present Situation of Visceral Leishmaniasis in China, *by Xu Zhi-Biao* 224

Book Reviews
Vector-borne Disease Control in Humans Through Rice Agroecosystem Management, *by M. W. Service* 228
Ross Institute Bulletin No. 8: Small Scale Sanitation, *by J. Lane* 229

AUGUST

News and Comment
This Month 231
The British Society for Parasitology Malaria Meeting, *by R. E. Sinden, M. Pudney and K. Marsh* 232
UNDP/World Bank/WHO Special Programme for Research and Training in Tropical Diseases (TDR), *by C. J. Schofield* 235

Reviews
The Acquisition of Lipids by African Trypanosomes, *by A. Mellors and A. Samad* 239
Applications of Remote Sensing to the Identification of the Habitats of Parasites and Disease Vectors, *by M. Hugh-Jones* 244

Focus
Point Mutations and Pyrimethamine Resistance in *Plasmodium falciparum, by J. E. Hyde* 252
Leishmaniasis in Manaus, Brazil, *by T. V. Barrett and M. S. Senra* 255
The Surface Membrane 3′-Nucleotidase/Nuclease of Trypanosomatid Protozoa, *by M. Gottlieb* 257
The Global Dispersal of Bancroftian Filariasis, *by B. R. Laurence* 260
Why is Malaria Fever Periodic? A Hypothesis, *by D. Kwiatkowski and B. M. Greenwood* 264

Book Reviews
Protozoologie Médicale Comparée (Vol. 3), *by W. Peters* 266
Paludisme et Médicaments, by M. Hommel 267

Books Received 267

SEPTEMBER

News and Comment
This Month 269
Parasitology Yesterday – Ernst A.H. Friedheim 1899–1989, *by L. Goodwin* 270
Parasites: Molecular Biology, Drug and Vaccine Design, *by R. M. Locksley, T. Nilsen and M. Parsons* 271
Dengue Haemorrhagic Fever 273
Schistosoma intercalatum 273

Debate
Where and How does Immune Elimination of *Schistosoma mansoni* Occur?, *by R. A. Wilson and P. S. Coulson* 274
and by D. J. McLaren 279

Reviews
Population Biology of *Trichostrongylus tenuis,* a Parasite of Economic Importance for Red Grouse Management, *by P. J. Hudson and A. P. Dobson* 283
Sea Lice – Major Pathogens of Farmed Atlantic Salmon, *by A. W. Pike* 291

Letters
Host Specificity, Host Range and Host Preference, *by A. J. Lymbery* 298
Blood Sucking Bugs, *by P. D. Marsden* 298
Sandfly Control: a Simple Method to Reduce Biting Rates, *by S. Kamhawi, S. K. Abdel-Hafez and D. H. Molyneux* 298

Focus
Leishmanicidal Activity of Amino Acid and Peptide Esters, *by M. Rabinovitch* 299
Computer-aided Identification of Insect Vectors, *by J. Lebbe, R. Vignes and J. P. Dedet* 301

Book Review
Malaria: Principles and Practice of Malariology (Vols 1 and 2), *by W. Peters* 304

OCTOBER

News and Comment
This Month 305
New Directions at the Danish Bilharziasis Laboratory, *by N. Ørnbjerg Christensen and T. K. Kristensen* 305
Emeritus Professor L. J. Bruce-Chwatt, 1907–1989, *by J. Haworth* 307
Highlights from Brocket Hall, *by C. P. J. Ash* 308

Reviews
Parasite Infections in AIDS, *by D. N. J. Lockwood and J. N. Weber* 310
Genetic Control of the Immune Repertoire in Nematode Infections, *by M. W. Kennedy* 316

Letters
Haematoparasites and QBC Analysis, *by M. T. Makler* 325
Reply, *by R. A. Levine* 325
Chloroquine Resistance, *by M. H. L. de Bruijn* 326
Detoxifying Esterases may Limit the use of Pyrethroids for Malaria Vector Control in the Americas, *by R. F. Beach, C. Cordón-Rosales and W. G. Brogdon* 326

Focus
Cardiac Parasympathetic Abnormalities: Cause or Consequence of Chagas Heart Disease?, *by D. F. Davila, R. O. Rossell and J. H. Donis* 327
Methionine Recycling as a Target for Antiprotozoal Drug Development, *by M. K. Riscoe, A. J. Ferro and J. H. Fitchen* 330

Alternative Answers
Urinary Schistosomiasis on Pemba Island: Low-cost Diagnosis for Control in a Primary Health Care Setting, *by L. Savioli and K. E. Mott* 333

Book Reviews
Ascariasis and its Prevention and Control, *by D. A. P. Bundy* 337
A Colour Atlas of Tropical Medicine and Parasitology (3rd edn), *by L. H. Chappell* 338

Books Received 339

Product News 339

NOVEMBER

News and Comment

This Month 341
Brian Gilmore Maegraith, 1907–1989, *by R. G. Hendrickse* 342
The Perils of Water-resource Development: Japanese Encephalitis, *by A. Crump* 343

Reviews

Biological and Immunological Characteristics of *Trichinella pseudospiralis, by G. L. Stewart* 344
Protective Immunity and Vaccines to Schistosomiasis, *by D. G. Colley and M. D. Colley* 350

Letters

Specific Antibody Response during the Acute Period of Chagas Disease, *by A. C. C. Frasch* 355
Reply, *by K. Petry and H. Eisen* 355
American Dog Tick: Vector of the Potomac Horse Fever Rickettsia, *Ehrlichia risticii?, by E. T. Schmidtmann* 355
Filariasis in History, *by J. R. Baker and by B. R. Laurence* 356

Focus

Morphological Types of *Taenia solium* Cysticerci, *by M. T. Rabiela, A. Rivas and A. Flisser* 357
Infectious Disease and the Unesco Basic Education Initiative, *by M. E. Halloran, D. A. P. Bundy and E. Pollitt* 359
The Role of $CD4^+$ T-cells in the Immune Response to *Plasmodium chabaudi, by J. Langhorne* 362
Comment on the Status of *Echinococcus granulosus* in the UK, *by D. P. McManus, R. C. A. Thompson and A. J. Lymbery* 365

HiTech

Storage of Filarial Parasites in CsTFA and Precipitation of Filarial DNA using MTAB, *by T. G. Egwang, J. P. Akue and M. Pinder* 367

DECEMBER

News and Comment

This Month 371
Parasitology in Japan, *by I. Tada* 372

Reviews

Bovine Trichomoniasis, *by A. Yule, S. Z. Skirrow and R. H. BonDurant* 373
Dormancy and Hatching of Nematode Eggs, *by R. N. Perry* 377

Letters

Estimates of Malaria Incidence, *by E. G. Loyola, M. H. Rodriguez, L. Gonzalez-Ceron and M. A. Vaca-Marin* 384
Reply, *by D. Stürchler*
Dicrocelium, by M. Begg 384

Focus

The Evolution of Phylogenetic Specificity among Parasitic Organisms, *by I. Humphery-Smith* 385
Schistosomiasis in Brazil: Does Social Development Suffice?, *by K. Kloetzel* 388
The Economics of Malaria Control in Thailand, *by S. Kaewsonthi and A. G. Harding* 392

HiTech

Multiple Peptide Synthesis (Pepscan Method) for the Systematic Analysis of B- and T-cell Epitopes: Application to Parasite Proteins, *by M. A. Miles, G. R. Wallace and J. L. Clarke* 397

Book Reviews

Computer-Aided Identification of Phlebotomines of French Guiana, *by M. H. Birley* 400
Cellular Organelles: Lysosomes, *by H. P. A. Hughes* 401

Books Received 401

Errata

Field-adapted Assays for Chloroquine and its Metabolites in Urine and Blood (April, pp 116 and 121–126), *by F. C. Churchill* 208
Chemotherapy and Drug Resistance in Malaria (2nd edn) (June, pp 197–198), *by D. C. Warhurst* 229
Population Biology of *Trichostrongylus tenuis,* a Parasite of Economic Importance for Red Grouse Management (September, pp 283–291), *by P. J. Hudson and A. P. Dobson* 369
Genetic Control of the Immune Repertoire in Nematode Infections (October, pp 316–324), *by M. W. Kennedy* 383
This Month (November, p. 341), *by Caroline Ash* 396
